

# **CERT Skills**

#### New for 2019-2020

Competitors are no longer required to show event guidelines at ILC. The triage skill has been retired. Changes have been made to what competitors need to bring to competition. Editorial updates and clarifications have been made to guidelines. Time remaining announcements have been added to the test. Scholarship information has been added to the guidelines. The test plan has been updated.

#### **Purpose**

To provide HOSA members with an opportunity to develop and demonstrate knowledge and skills they will need to respond to their community's immediate needs in the aftermath of a disaster, when emergency services are not immediately available.

#### Description

This event will consist of two rounds of competition for a 2-person team. Round One is a written, multiple choice test. Written test will measure knowledge and understanding at the recall, application or analysis levels. Higher-order thinking skills will be incorporated as appropriate. The test score from Round One will be used to qualify the team for Round Two, and will be used as part of the final score. The top scoring teams will advance to Round Two for the performance of a selected skill(s) identified in a written scenario. The scenario will require the use of critical thinking skills. The performance will be timed and evaluated according to the event guidelines.

#### **Dress Code**

Competitors shall wear proper business attire or official HOSA uniform, or attire appropriate to the occupational area, during the orientation, written test and skill(s)– jeans and shorts are not acceptable. Bonus points will be awarded for <u>proper dress</u>.

#### **Rules**

- 1. Competitors in this event must be active members of HOSA and in good standing in the division in which they are registered to compete (Secondary or Postsecondary/Collegiate). Competitors should compete in skill events at the highest level of training. An example would be students enrolled in an Emergency Medical Technician course should compete in the Emergency Medical Technician event and NOT in the CERT or CPR/First Aid event.
- Competitors must be familiar with and adhere to the <u>"General Rules and Regulations of the HOSA Competitive Events Program (GRR)."</u>
- 3. The written test will consist of fifty (50) multiple choice items. The scores of the two team members will be averaged for one composite score and will be used as a part of the final score for the event.

#### Round One: Wr

#### **Written Test Plan**

Disaster Preparedness	14%
Fire Safety	8%
Treating Life Threatening Conditions	20%
Disaster Medical Operations	24%
Light Search and Rescue Operations	12%
Disaster Psychology	6%
Terrorism	10%
CERT Organization	6%

- 4. All competitors shall report to the site of the required event orientation at the time designated. The Round One test will immediately follow the orientation. At ILC, photo ID must be presented prior to competing in each round. No proxies will be allowed for the orientation.
- 5. <u>Test Instructions:</u> The competitors will be given instructions and will be notified to start the test. There will be a maximum of 60 minutes to complete the test. Competitors should leave the testing site promptly after submitting all testing materials and evaluations.

NOTE: States/regions may use a different process for testing, to include but not limited to pre-conference testing, online testing, and testing at a computer. Check with your Area/Region/State for the process you will be using.

- TIME REMAINING ANNOUNCEMENTS: There will be a verbal announcement when there are 30 minutes, 15 minutes, 5 minutes, and 1 minute remaining to complete the test
- 7. All official references are used in the development of the written test. The specific references selected for each skill are from the CERT Curriculum.
  - CERT Training Materials (as posted as of September 1, 2019): <u>Community</u> <u>Emergency Response Team Training Participant Manual</u>
  - CERT Online Training Course (as posted as of September 1, 2019):: https://www.ready.gov/community-emergency-response-team
- 8. Course content can be downloaded and printed for the CERT course. CERT competitors at the HOSA International Leadership Conference should have completed a classroom-based FEMA CERT basic training course. For information about CERT training in your state or starting a CERT chapter, go to ready.gov/citizencorp. Those who do not have access to a classroom-based training course can go to the online course information:

  https://www.ready.gov/community-emergency-response-team
- 9. The test score from Round One will be used to qualify the team for the Round Two. The skills approved for this event are:

Skill I A&B: Treating Life-Threatening Conditions
Skill II: Head-to-Toe Assessment
(5 minutes)
Skill III: Lifts and Carries
(8 minutes)
Skill IV: Splinting a Closed Fracture
(5 minutes)

- 10. HOSA Management and event personnel have the option of providing one additional minute to the skill event interval prior to the scenario for competitors to preview the equipment that is provided for the event. If given, the one minute allowed for equipment preview will be added to the overall skill interval and competitors will be told they have an extra minute to review the equipment.
- 11. The selected skill(s) for Round Two, in the form of a written scenario, will be presented to the competitors at the start of the skill to be performed. The scenario will be the same for each team and will include a challenging component that will require the competitors to apply critical thinking skills. A sample scenario can be found here.

- 12. The scenario is a secret topic. Professional ethics demand that competitors DO NOT discuss or reveal the secret topic until after the event has concluded. Violation of the ethics rules will be severely penalized per the GRRs.
- 13. Competitors must complete all steps of the skill listed in the guidelines even if the steps must be simulated/verbalized. (If the equipment is available, the competitors would complete all steps of the skill as the scenario warrants. If the equipment is NOT available, the competitors would simulate/verbalize the steps.)
- 14. Timing will begin when the scenario is presented to the team. Competitors will be stopped at the end of the time allowed. Note: Team members may verbalize/simulate the helmet and boots, and may don safety equipment prior to receiving the scenario.
- 15. Teams must earn a score of 70% or higher on the combined skill(s) of the event (excluding the test) in order to be recognized as an award winner at the ILC.
- 16. In case of a tie, the highest averaged test score will be used to determine the rank.
- 17. HOSA offers numerous scholarships every year to its members interested in pursuing a variety of health careers. As you consider participating in this competitive event, please keep in mind there may be a HOSA Scholarship offered that fits your interests! For more information on the HOSA Scholarship program, please visit http://www.hosa.org/scholarships.

Compe	etitors Must Provide: Two #2 lead pencils with eraser Watch with second hand (optional-Round Two only) Photo ID
Disaste	er Kit with the following items:
	Barrier supplies for each competitor:
	<ul> <li>12 pairs of exam gloves (non-latex) per competitor</li> </ul>
	<ul> <li>Goggles or safety glasses</li> </ul>
	o 2 dust masks
	Helmet (may be simulated/verbalized)
	Boots (may be simulated/verbalized)
	Scissors
	Plain paper (or note cards) and pen or marker for documentation and labeling treatment areas if needed
	Clip board and spiral notebook (optional)

One Judge Manager (JM) to provide quality assurance for the event by ensuring that the guidelines are followed and all event documents are complete.

	One Section Leader per section Two judges per section (one judge for Skill IV & V), CERT credentials preferred Proctors for Testing – Approximately one proctor for 20 competitors Event assistants per section as needed Victim as required by the scenario (per section) Moulage Specialist (if necessary) Timekeepers (if necessary) Holding room attendants(s) as needed
	Equipment and Materials (Per Section):  Rooms or off-site locations for selected skills (see HOSA Room Set)  Props consistent with the emergency setting, which may include items that can be used by the competitors in responding to the emergency.
	e: Written Test (Reference: All resources) List of competitors for check-in One pre-numbered test per competitor Scantron/answer forms- one copy per competitor Evaluation forms- competitor and event personnel #2 lead pencils with eraser to complete evaluations (event personnel)
	Stations for selected skills Holding rooms/areas for competitors (if off-site) List of competitors for check-in Written Scenario-copies for judges, section leaders Victim and judge scripts as needed #2 lead pencils (judges & evaluations) Stopwatch(s) Rating sheets-one per judge per team Evaluation forms-competitor, judge, event personnel Copy of guidelines for judges Hand sanitizer (alcohol based handrub) Flashlight – two per section Blanket – two per section
Skill I	Treating Life Threatening Conditions Two victims – manikin or victim Moulage for bleeding victim 4 x 4 dressings (8) per section Pressure dressings (2) per section
Skill II	Head-to-Toe Assessment Two victims Medical jewelry if called for in scenario
	Lifts and Carries  One victim who is small of stature – Skill IV-A  Four victims – victim or manikin – Skill IV-B  Chairs, tables, and assorted furniture  "Safe Area" sign  Blanket – one per section  No scenario required (Skill IV-A) – this skill is designed to have teams demonstrate their ability to

perform all five lifts on the rating sheet as directed by the judges.

# Skill IV Splinting a Closed Fracture □ One victim □ Assorted materials that could be used as splints, ties or padding- magazines, textbooks, boards, cardboard □ "Safe Area" sign

#### **Event Flow Chart**

#### **Sample Round One Test Questions**

- 1. The law that protects volunteers who provide care in a prudent and reasonable manner is the:
  - A. American Health Care Benefit Act.
  - B. First Aid Responsibility law.
  - C. Good Samaritan law.
  - D. US Disaster Recovery Act.
- 2. How many times should CERT members attempt to restore breathing of a victim before moving to the next victim?
  - A. Once
  - B. Twice
  - C. Three times
  - D. Multiple times
- 3. The patient with a nosebleed should be positioned \_\_\_\_\_\_
  - A. on the abdomen
  - B. on the back with head slightly elevated.
  - C sitting with the head slightly backward.
  - D sitting with the head slightly forward.

The purpose of Skill **IV-A** is to demonstrate the ability to perform lifts and carries. The skill performance is done in a classroom or meeting room setting, and the judge directs the competitors to perform the lifts. In lifts #1 and #4, team members demonstrate the lift on each other. In #2 and #3, the lift is demonstrated on a volunteer who is small in stature.

**Note to judges:** You will use the sequence below for each lift to instruct the competitors on the lifts to be demonstrated. **Competitor safety** must be the primary consideration during the demonstration of each lift. If the performance of any lift or carry could be considered unsafe, please have the competitors demonstrate and verbalize the lift without actually lifting the victim.

SKIII	III-A:	Lifts and Carries – Demonstration (8 minutes)	Possible	Awarded
