

CPR/First Aid

New for 2019-2020

Competitors are no longer required to show event guidelines at ILC. Editorial updates and clarifications have been made to guidelines. Time remaining announcements have been added to the test. Scholarship information has been added to the guidelines.

- Purpose** To provide the HOSA member with an opportunity to develop and demonstrate knowledge and skills in team first aid and basic life support.
- Description** This event will consist of two rounds of competition for a 2-person team. Round One is a written, multiple-choice test. Written test will measure knowledge and understanding at the recall, application or analysis levels. Higher-order thinking skills will be incorporated as appropriate. The test score from Round One will be used to qualify the team for Round Two, and will be used as part of the final score. The top scoring teams will advance to Round Two for the performance of a selected skill(s) identified in a written scenario. The scenario will require the use of critical thinking skills. The performance will be timed and evaluated according to the event guidelines.
- Dress Code** Competitors shall wear proper business attire or official HOSA uniform, or attire appropriate to the occupational area, during the orientation, written test and skill(s)– jeans and shorts are not acceptable. Bonus points will be awarded for [proper dress](#).
- Rules and Procedures**
1. Competitors in this event must be active members of HOSA-Future Health Professionals and in good standing in the division in which they are registered to compete (Secondary or Postsecondary/Collegiate). *Competitors should compete in skill events at the highest level of training. An example would be students enrolled in an Emergency Medical Technician course should compete in the Emergency Medical Technician event and NOT in the CERT or CPR/First Aid event.*
 2. Competitors must be familiar with and adhere to the [“General Rules and Regulations of the HOSA Competitive Events Program \(GRR\).”](#)
 3. The test will consist of fifty (50) multiple choice items. The scores of the two team members will be averaged for one composite score and will be used as a part of the final score for the event.

Round One: **Written Test Plan**

Anatomy and Physiology	15%
Basic Life Support	40%
• General Concepts	
• BLS/CPR for Adults, Children and Infants	
• AED for Adults, Children and Infants	
• CPR with Advanced Airway	
• Mouth-to-Mouth/Rescue Breathing	
• Relief of Choking	
First Aid	45%
• Basics	
• Medical Emergencies	
• Injury Emergencies	

- Environmental Emergencies

4. All competitors shall report to the site of the required event orientation at the time designated. The Round One test will immediately follow the orientation. At ILC, [photo ID](#) must be presented prior to competing in each round. **No proxies will be allowed for the orientation.**
5. [Test Instructions](#): The competitors will be given instructions and will be notified to start the test. There will be a maximum of 60 minutes to complete the test. Competitors should leave the testing site promptly after submitting all testing materials and evaluations.

NOTE: *States/regions may use a different process for testing, to include but not limited to pre-conference testing, online testing, and testing at a computer. Check with your Area/Region/State for the process you will be using.*

6. **TIME REMAINING ANNOUNCEMENTS:** There will be a verbal announcement when there are 30 minutes, 15 minutes, 5 minutes, and 1 minute remaining to complete the test.
7. All official references are used in the development of the written test. The specific reference selected for each skill is listed in the Facilities, Equipment and Materials section of these guidelines.
 - [American Heart Association, Basic Life Support, Latest edition.](#)
 - [American Heart Association, Heartsaver First Aid CPR AED. Latest edition.](#)
 - [Simmers, L., Simmers-Nartker, Simmers-Kobelak. DHO: Health Science. Cengage Learning, Latest edition.](#)
8. The test score from Round One will be used to qualify the team for the Round Two. These skills include one First Aid skill and one BLS skill. Rescuer 1 initiates the first aid skill while Rescuer 2 initiates the BLS skill. After the first aid patient has been treated, Rescuer 1 will assist Rescuer 2.

First Aid Skills – Rescuer 1 Initiated

- Skill I: Severe Bleeding and Shock
- Skill II: Choking
- Skill III: Compound Fracture and Splinting
- Skill IV: Severe Burns
- Skill V: Heat-Related Emergency

BLS for Healthcare Providers – Rescuer 2 Initiated

- Skill VI: Adult BLS/CPR
- Skill VII: Adult BLS/CPR (Rescuer 1 Assists)
- Skill VIII: Adult BLS with AED
- Skill IX: Adult BLS with AED (Rescuer 1 Assists)
- Skill X: Infant BLS/CPR
- Skill XI: Infant BLS/CPR (Rescuer 1 Assists)

9. A **twelve (12) minute maximum time limit** has been set for reviewing the scenario and caring for the patients (skill performance). Timing will begin when the scenario is presented to the team. Competitors will be stopped at the end of the twelve (12) minute time limit.

10. HOSA Management and event personnel have the option of providing one additional minute to the skill event interval prior to the scenario for competitors to preview the equipment that is provided for the event. If given, the one minute allowed for equipment preview will be added to the overall skill interval and competitors will be told they have an extra minute to review the equipment.
11. The selected skill(s) for Round Two, in the form of a written scenario, will be presented to the competitors at the start of the skill to be performed. The timing for the skill will begin when the scenario is presented. The scenario will be the same for each team and will include a challenging component that will require the competitors to apply critical thinking skills. A sample scenario can be found [here](#).
12. The scenario is a secret topic. Professional ethics demand that competitors DO NOT discuss or reveal the secret topic until after the event has concluded. Violation of the ethics rules will be severely penalized per [the GRRs](#).
13. Competitors must complete all steps of the skill listed in the guidelines even if the steps must be simulated/verbalized. (If the equipment is available, the competitors would complete all steps of the skill as the scenario warrants. If the equipment is NOT available, the competitors would simulate/verbalize the steps.)
14. The team must earn a score of 70% or higher on the combined skill (s) of the event (excluding the test) in order to be recognized as an award winner at the ILC.
15. In case of a tie, the highest averaged test score will be used to determine the rank.
16. HOSA offers numerous scholarships every year to its members interested in pursuing a variety of health careers. As you consider participating in this competitive event, please keep in mind there may be a HOSA Scholarship offered that fits your interests! For more information on the HOSA Scholarship program, please visit <http://www.hosa.org/scholarships>.

Note: HOSA follows **American Heart Association** guidelines for CPR for healthcare providers. Steps may differ from those recommended by the American Red Cross. For competition purposes, competitors must follow the steps listed in the guidelines for this event.

Competitors Must Provide:

- Two #2 lead pencils with eraser
- Watch with second hand (optional-Round Two only)
- [Photo ID](#)

General Equipment to be provided by competitors in a first aid kit or bag:

- Cravats (5-10) (Defined as strips of cloth, triangular bandages folded into strips, roller gauze, or other similar material to tie or anchor splints in place.)
- Sterile Gauze Squares, 4" X 4", 6-10 total (may be packaged as singles, doubles, or multiples)
- Any size roller bandages (Kling/similar) 4-6 total
- One trauma dressing (ABD)
- Non-stick sterile dressing(s)
- Mouth-to-mask device AND Bag-Mask device (Adult and Infant)
- Biohazard bag
- Hand sanitizer
- Cell phone (for simulating 911 call)
- One pair of scissors
- Adhesive tape
- PPE: 10 pair of non- latex gloves, 2 sets of goggles or safety glasses

** Teams have the option of bringing one kit per person or one kit per team - and should ONLY bring the materials listed above.*

FOR SPECIFICS ON EVENT MANAGEMENT SEE [MANAGING COMPETITIVE EVENTS](#)**Required Personnel:**

- One Event Manager
- One Judge Manager (JM) to provide quality assurance for the event by ensuring that the guidelines are followed and all event documents are complete.
- One Section Leader per section
- Judges: two judges (one for each rescuer)
- Proctors for Testing – Approximately one proctor for 20 competitors
- Event assistants per section
- Timekeepers (if necessary)
- Moulage Specialist (if necessary)
- One-two patients as required by the scenario (per section)
- Holding room attendants(s) as needed

Facilities, Equipment and Materials (Per Section):**Round One Written Test** (Reference: All resources)

- List of competitors for check-in
- One pre-numbered test per competitor
- Scantron/answer forms- one copy per competitor
- Evaluation forms- competitor and event personnel
- #2 lead pencils with eraser to complete evaluations (event personnel)

General

- Clinical and/or laboratory stations for selected skills (see [HOSA Room Set](#))
- Holding rooms/areas for competitors (if off-site)
- Written Scenario-copies for judges, section leaders

- Patient and judge scripts as needed
- Stopwatch(s)
- Moulage supplies (as required by the scenario)
- Assorted props, which may include pillows and/or blankets
- Rating sheets – one per judge per competitor
- Evaluation Forms – competitor, judge, and personnel
- #2 lead pencils (judges & evaluations)
- Copy of guidelines for judges
- Hand sanitizer (alcohol based handrub)

Skill I: Severe Bleeding and Shock (DHO)

- One patient (check the scenario for particulars)
- Moulage or artificial bleeding wound
- T-shirt(s) for patient to protect from moulage
- Medical information jewelry if called for in scenario

Skill II: Choking (Heartsaver First Aid CPR AED, AHA)

- One patient (check the scenario for particulars)
- Pillow for patient – the person playing the role of the patient should wear an extra-large, loose fitting shirt so that a pillow can be placed under his/her shirt for protection, in the unlikely event that the competitor actually performs an abdominal thrust. It should be made clear to the competitor that the patient is NOT obese or pregnant.

Skill III: Compound Fracture and Splinting (Heartsaver First Aid CPR AED, AHA)

- One patient (check the scenario for particulars)
- Moulage or artificial fracture/wound
- T-shirts for patient to protect from moulage
- Cold pack or bag and ice
- Towel
- Props or devices that can be used for splinting- magazines, textbooks, boards, cardboard

Skill IV: Severe Burns (DHO)

- One patient (check the scenario for particulars)
- Medical information jewelry if called for in scenario

Skill V: Heat-Related Emergency (DHO)

- One patient (check the scenario for particulars)
- Washcloth
- Water
- Juice or sports drink
- Medical information jewelry if called for in scenario
- Ice packs if indicated in scenario

Skill VI and VII: Adult BLS/CPR (BLS, AHA)

- Adult CPR Manikin

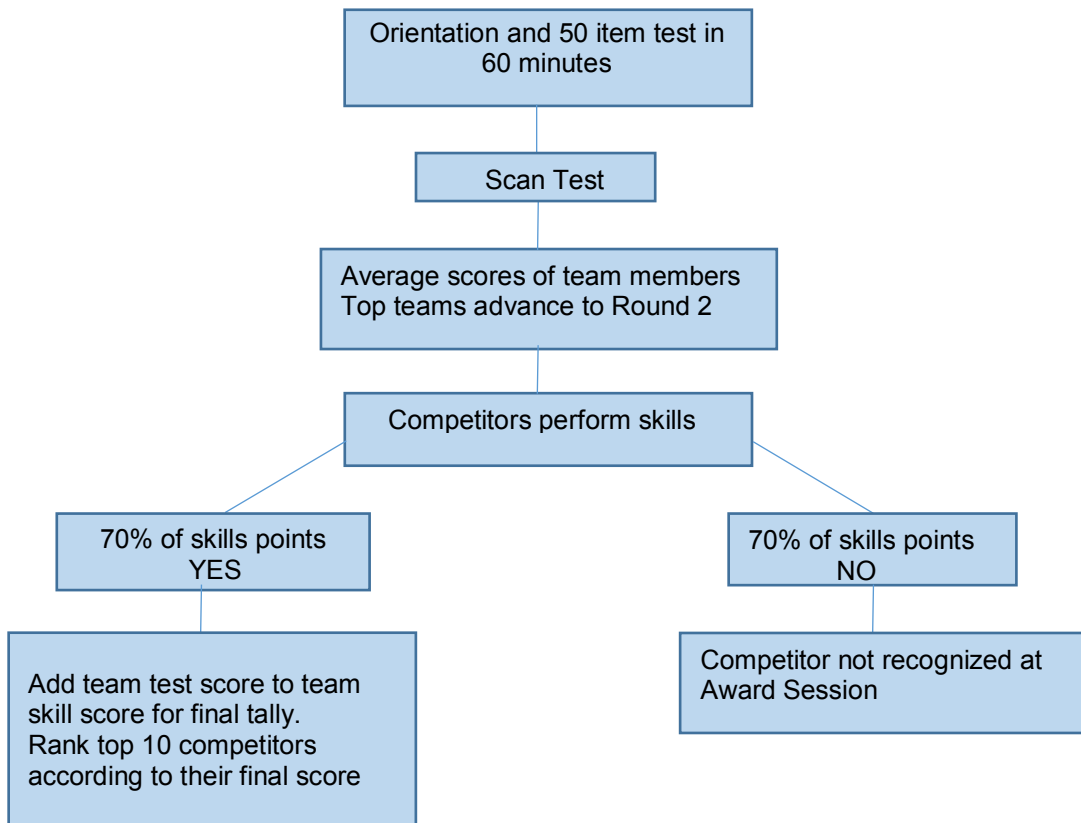

Skill VIII and IX: Adult BLS with AED (BLS, AHA)

- Adult CPR Manikin
- AED (with appropriate size batteries)

Skill X and XI: Infant BLS/CPR (BLS, AHA)

- Infant CPR Manikin

Event Flow Chart

Sample Round One Test Questions

1. What is the second link in the AHA BLS out-of-hospital adult chain of survival?
 - A. Early CPR with an emphasis on chest compressions.
 - B. Effective advanced life support.
 - C. Multidisciplinary post-cardiac arrest care.
 - D. Rapid defibrillation with an AED.
2. The responsive diabetic who has signs of low blood sugar may be given:
 - A. chocolate.
 - B. something to eat or drink that contains sugar.
 - C. a diet coke.
 - D. nothing to eat or drink.
